AUTOMATION  
SOLUTIONS

## Quality Repairs With Confidence

Quality repairs are crucial to the long-term health of your automation equipment.

### ASK YOURSELF

- Are you challenged to find one source for your electrical board repairs?
- Can reliable board and instrument repair help with your supply chain solutions?
- Do you have the ability to perform repairs that meet OEM standards?
- Do you want the confidence of a 1-year warranty on the *complete* unit?
- Is diagnosis of root cause of a failure important to your operation?

### EXAMPLES OF MANUFACTURERS WE SUPPORT

## Benefits of a Rexel Repair Solution

### Quality:

Repaired equipment is protected by a 12-month warranty covering the entire unit, not just the repaired components.

### Repair Savings:

Decrease service costs by increasing the mean time between failure.

### Faster Recovery:

Minimize downtime with our equipment exchange program.

### Extend Product Lifespan:

Repair obsolete or hard-to-find replacement products for increased dependability.

### Detailed Testing:

Trend analysis on parts can predict component failures and enhance product reliability.

## AUTOMATION SOLUTIONS

## Are you optimizing your industrial repair life cycle investments?

**Increase** overall operating effectiveness

**Improve** meantime between failures

**Support** your assets with a 12-month warranty

**Reduce** operational costs

### HOW WE MANAGE YOUR REPAIR

- ▶ Your equipment is cleaned thoroughly to remove all contamination.
- ▶ Diagnostic tests are completed to identify any inoperable components.
- ▶ Functional testing performed on designated platforms.
- ▶ Circuit analysis isolates marginal components.
- ▶ Inoperative as well as marginal components are replaced to support long-term performance of the unit.
- ▶ State-of-the-art equipment verifies total circuit board quality.
- ▶ Circuit boards are coded and tagged.
- ▶ Handling, packaging and shipping are performed in a static-free environment.
